COURTHOUSE, SOMERSET, Pa., Feb. 20.—Despite savage prodding by Attorney General Charles J. Margiotti, special prosecutor in the case, Assistant District Attorney Harry W. Byrne, one of the seven men indicted for murder in the death of Frank C. Monaghan, 64, today was unable to remember statements which Margiotti asserted he had previously made under oath.

Margiotti and Byrne, both shrewd criminal lawyers of long practice, clashed on cross-examination today. Byrne was called as a defense witness for State Trooper Stacey Gundersen, first of the seven defendants to be brought to trial.

Unable To Remember
Under a pounding examination by Margiotti, Byrne maintained he was unable to remember items concerning which Margiotti said he had

PA NEW OBSERVES

One of Pa New's scouts saw a boy run from a school, and without looking, dash into the street, directly in the path of a motorist yesterday afternoon. Only the quick action of the motorist saved the boy from being run down and probably injured.

Despite the patching up of Richelieu avenue and Erie avenue at intervals throughout the year, it doesn't take long for the large holes to reappear. Motorists notice both avenues being extremely rough. It is hoped some day, not too far off in the future, this will be permanently remedied with paving.

"The Weatherman" certainly has been fooling us of late. Even has the birds confused. A robin was seen the other day by P. J. Rowland of Superior street in his neighborhood.

Just a year ago today we were shivering under the lowest temperature of the winter, the official recording being 18 below zero.

New Castle's street department is going to have a big job on its hands this spring fixing up the dirt streets of the city. Many of them are in a terrible condition now and workmen are busy filling up holes as fast as they can get around to it.

The motormen of New Castle have always been recognized for their courtesies shown to passengers at all times, but our hat goes off to them in particular—Andrew H. Intervention In Spain Will Now Be Halted

(BULLETIN)
(International News Service)
Europe, after seven months of unofficial but ill-disguised intervention on both sides, decided today to let Spain waver in its own blood as Fascist powers joined Democratic nations and the Soviet union in barring further "volunteering."

Developments were:
1.—Germany, Italy, and Portugal decreed an end to further enlistments in Spain. Portugal ordered

her nationals to quit Spanish armies within one month.
2.—With tremendous losses on both sides as loyalists counter-attacked, the greatest battle of the civil war was in progress, in the Jarama river sector, immediately southwest of the capital. Both sides rushed reinforcements for what was considered a decisive conflict.
3.—The French cargo steamer Djebel-Amour and the Greek merchantman Memoas reported attacks by Spanish war planes.

Then, the legislators, after six weeks of relative inactivity, will get down to the serious business of law-making, which include a possible slash in taxes.

BERLIN, Feb. 20.—Strikes are "economic nonsense," declared Adolf Hitler today as he opened, in the style of a Roman triumph, a vast motor exhibit. The Reichsfuehrer's comment was an indirect reference to the recent General Motors strike in the United States. As he spoke, he surveyed several American makes of cars among the 1000 automobiles and 1000 motorcycles in the exhibition hall.

Denying there was any question of German economic isolation Hitler said:

MADRID, Feb. 20.—Reinforced loyalist forces charged with bayonets on rebel trenches southeast of the capital today in a renewed counter-offensive, but made little gain in a battle of immenses cost to both sides.

Rebel sources asserted leftists in the Jarama river sector, where the biggest struggle of the war is being staged for control of the Madrid-Valencia "life-line" of the loyalists, were hurled back at two points with enormous losses.

On the south slopes of the Sierra Nevada (snowy range), a rebel communiqué said, 105 loyalists were killed and 61 taken prisoner when a leftist concentration was wiped out.

Severe Fighting On Northern Front
Severe fighting was also reported on the northern front, where rebel aircraft harassed newly strengthened loyalist lines west of the Catalonian border. Tanks, cavalry, and aircraft participated in assaults along a 150-mile front from the middle of Terre province to a point north of Huesca.

Striving to match the 20,000 reinforcements reportedly being rushed up to the Madrid front along the Jarama river, the loyalists called on all available reserves to fight against an anticipated new insurgent offensive aimed to sweep across the Valencia highway and take Alcala De Henares. Period Of Truce
Granted Today

(BULLETIN)
(International News Service)

NORTH CHICAGO, Feb. 20.—A 24-hour truce at the besieged Fansteel Metallurgical plant, still held by 80 sit-down strikers, was granted today.

Shortly after granting this respite Sheriff L. A. Doolittle, in command of the 300 deputies who ringed the two buildings yesterday, was taken ill from the effects of tear gas he inhaled accidentally.

Chief Deputy Thomas Kennedy took command of the deputies, about 100 of whom remained at the scene today.

A cold mist accompanied day-break. Through broken windows strikers could be seen pacing up and down to keep warm.

Heat And Water Shut Off
Both heat and water have been shut off. An oil stove was sent in to the strikers last night, but it proved inadequate against the cold.

A crowd of about 150 persons gathered at the scene again today. Company officials, in a midnight conference, were reported to have decided on a demand for troops, but conciliators and officers were determined to avoid both troops and renewed violence if possible. Though 10 of their number left for their homes, the remaining sit-down strikers, who yesterday repulsed a tear gas attack by 125 officers with a barrage of missiles and acid, gave no sign of weakening today.

Demand Strikers Be Ejected
Max Swiren, spokesman for the company, declared early today.

Life is a footrace, more or less, you start at the crack of the starter's gun, and the main thing is not in winning race but rather the kind of a race you've run. If you've hit the trail with the best you have and you've followed the rules then you've won my friend, and that even though you may not be first, when you finish the race at the other end. Its important to win if you possibly can, but observe the rules as you run our way, for victory dishonest is dearly won, the weather is forty six today.

A Good Citizen Must Have Good Credit

A good Citizen must have Good Credit. Credit to most of us means the acquiring of something of value without having to pay for it immediately, but it has a more important aspect, it functions today as an economic stimulus to better living and we should safeguard it and conserve it as we do our health.

Nearly sixty per cent of the total retail business transacted annually is done on some form of credit. In its modern usage, Retail Credit is divided into two kinds, i. e., the Monthly Charge Account and The Time Payment or Installment Account. Both have their place in our economic welfare and both are well defined in their use.

The Parent Problem

By Gafry C. Myers, Ph. D.

TOO MANY ACTIVITIES

AT THE PRESENT rate of mental breakdown, about a million children now in our public schools will be mentally sick before they die. Mental breaks begin in the early teens, and the victims often are more often than not, perhaps, are the most promising boys and girls.

We live in times of hurry, stress and strain, especially for the adolescent. The demands at school are heavy, and the allurements outside of school and home are powerful. Many teen-age children are not getting sleep enough; most, not enough relaxation.

Look at the faces of our adolescent boys and girls. Some of them bespeak the seriousness of old men and women. How could it be otherwise? Many of them enjoy relaxation only while asleep. Some, indeed, have no time they can call their own, to loiter about and do as they please and with clear conscience.

The school schedule of the adolescent is strenuous, and he may be cursed with a teacher who thinks his subject is the only one, and that the more students complain of excessive home work the more should be assigned. Unfortunately this teacher is about the first to win promotion, because his students who do not fail or break—and no matter about those who break!—have excellent preparation for like subjects farther on. These teachers get their reputation with the principal more through elimination of the weak and timid than through development of all the class. Wise administrators will restrain these "drunken drivers". Why not let the editor of this paper have your opinion, whether you agree with me or not?

Program Is Heavy

Even with reasonable assignments by all teachers, the high school program is heavy. Nor should we expect the principal to lower standards. Something else we and he working together can do: we can induce, and even direct, students for whom the regular program is too heavy—and in this group may be some of the brightest students—to spread the work over one or several more years than the regular period, taking one or several more years to graduate. The same should be done for many college students.

Some students have too many extra-curricular activities: class office, orchestra, athletics, debate, club, school journal, and maybe one of several life activities away from school. Hundreds and hundreds of these innocent youth are facing disaster because the school and home have egged them on rather than guided them in a safe and sane program. Why have we been so blind and even so cruel to these youths? Don't we have character and wisdom—enough to save them?

All Of Us

"I LIKE TO WIN"

YOU'RE NOT supposed to say, "I like to win."

The proper thing to do is wipe that smile from your face and say: "When I'm playing a game I don't really care whether I win or lose. The keen competition, the joy of friendly relationships, the pleasure of mental or physical exercise—these are what I want and winning or losing are not important."

I've little sympathy for that point of view, though I've sometimes put it into words myself. . . I've heard a tennis player, after winning a hard fought set, say to the man he's beaten: "You didn't play well today, and you had tough luck on that bad bounce"—when all the time he knew that he was a better player and the other fellow didn't have a chance that day.

And I've heard good bridge players explain, almost apologetically, that the only reason they won was that they held the best cards and were lucky. . . When they didn't have better cards, didn't have exceptional luck, but did have more brains and experience.

The theory behind it seems to be that it's bad sportsmanship to play to win or to admit that you like winning.

Then I'm a bad sport because I play to win and I like to win.

If I'm poor at a game, I don't play it. If I lose, I don't feel so fine. And never in my life did I ever get half as much fun out of losing as I have out of winning. Winning makes me feel fine and I like it.

That doesn't mean I must snarl, claw, cheat and foul to win. There are certain accepted rules for all games, for every end in life, and we must keep within those established conventions of competition and conduct—and win within them.

And show me the human being that does NOT like to win, and you will show me a man who doesn't get the maximum amount of fun out of living.

TAKES MONEY TO RUN

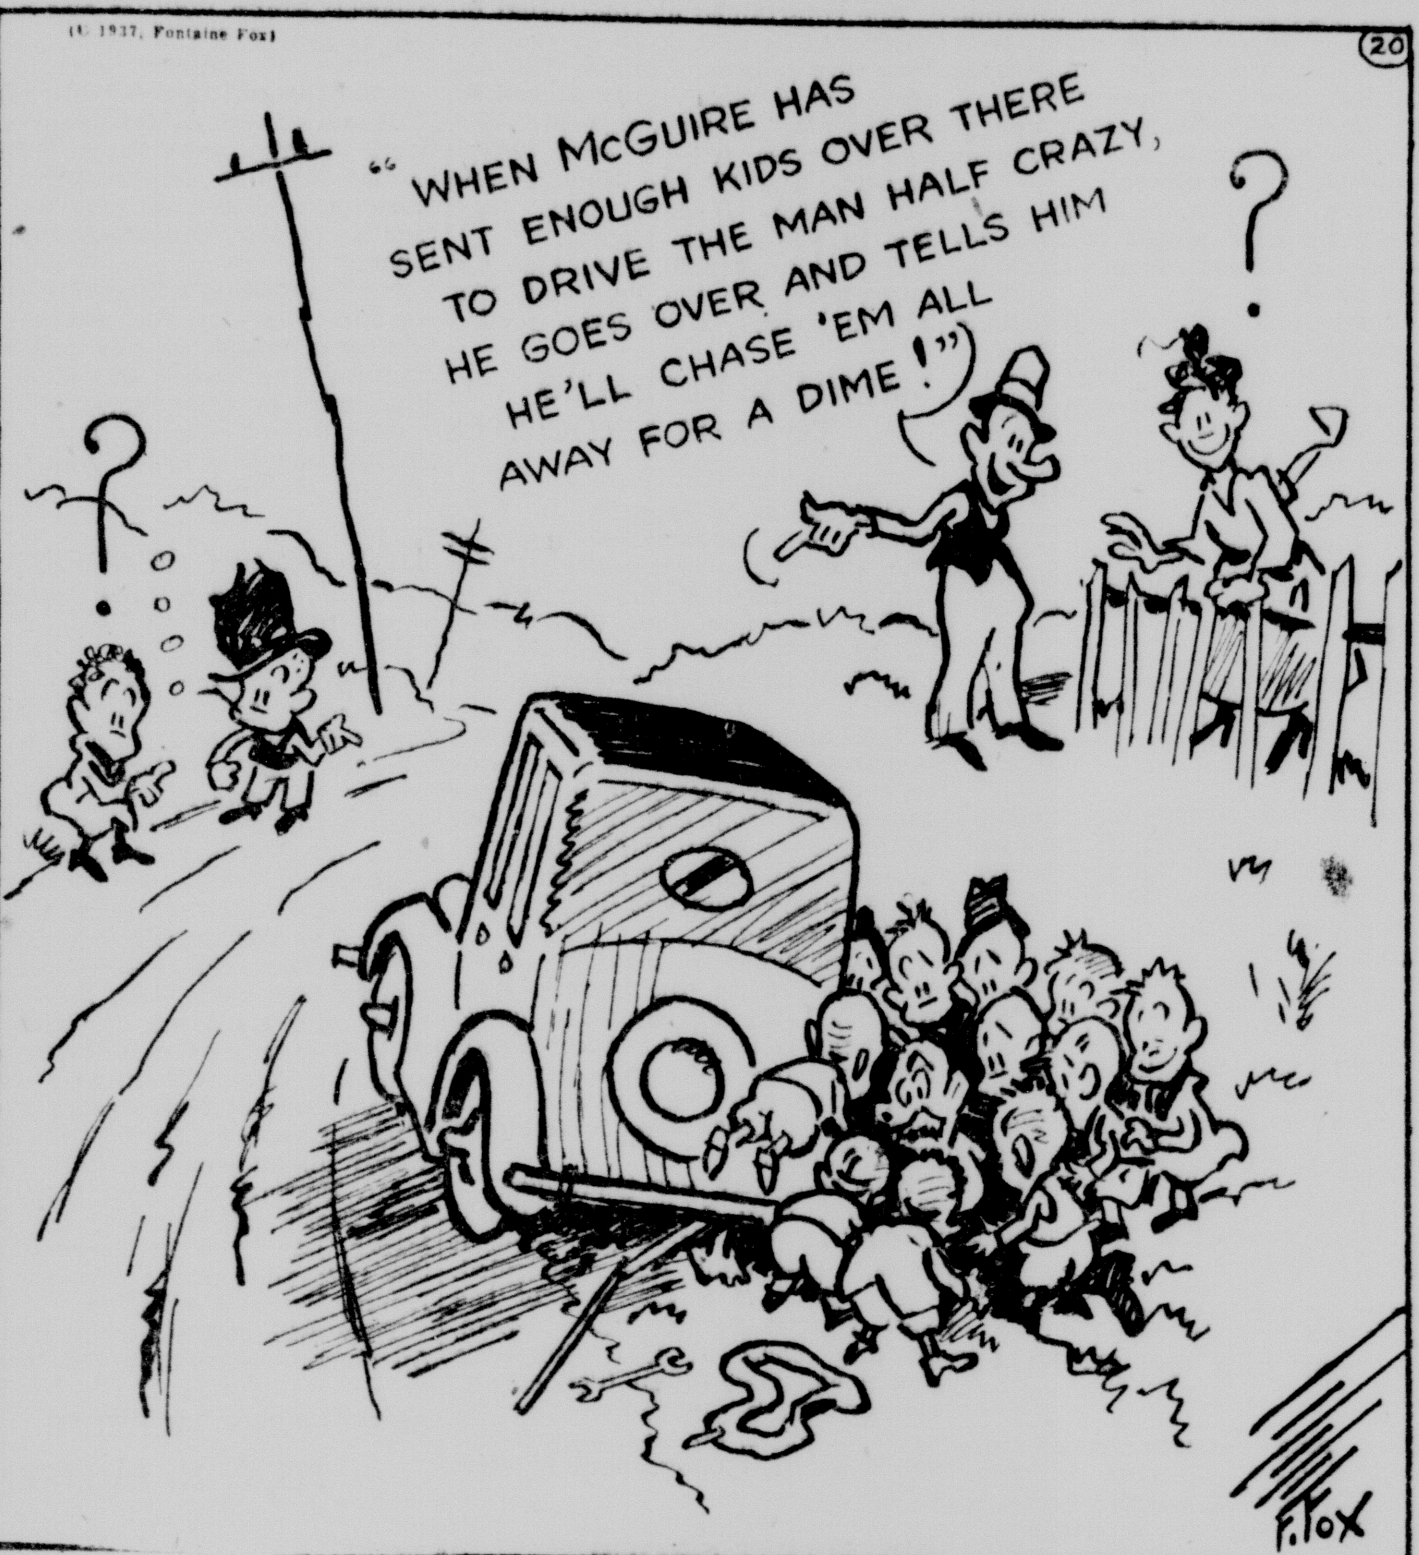

The courts of the country are now being thrust into the limelight and anything pertaining to the Judiciary is interesting.

In a southern state there was some years since, a vacancy on the Supreme Court Bench and a fine lawyer gentleman was appointed by the Governor. Immediately the members of a prominent law firm congratulated him upon his appointment. The appointee declined.

Answer—We all have our favorite brands of cigarettes, although if given the blind-fold test we probably couldn't detect one from another, but we nevertheless cling tenaciously to our idea on this subject.

The polite gesture, under such conditions, would be to say "I don't care to smoke just now" and later smoke one of your own cigarettes; or accept his and be a martyr.

New Comedy Looks Back.
Recalls Horrid Days Of Past.
What Will Future Say Of Us?

By LESLIE EICHEL

Central Press Columnist

WE'VE BEEN on a trip and the printers are crying for copy. One is ready to snatch the paper as we write.

Which reminds us that time is speeding faster than we realize. This is brought to mind by a play we just have seen—Yes, My Darling Daughter.

This play is a new success, written in deft style by Mark Reed. In fact, it sets a new literary mark for American comedy.

REMEMBER?

It looks back upon pre-war Greenwich Village days.

The daughter of a Village poet of those days goes in for a little romance of her own. When called to book by her mother, she brings to light her mother's "Greenwich Village" past. Not that it was horrible or ignoble or unjustified. The only shock is the realization, upon looking back, that we have advanced so far in 24 years, or that 1913 seems so far, so very far in the past. This little comedy looks back with not ungente longing. But a few hours later we sat in the office of a New York executive, and he looked forward with a none too gentle warning.

GREAT CHANGES

Arrest Two In Flogging Case

Arrests Are Made In North Carolina For Episode Of Last November

(International News Service)
WHITEVILLE, N. C., Feb. 20.—A Baptist minister and a deacon in his church were under arrest today awaiting a hearing next Tuesday on charges growing out of the flogging of two men by a band of praying night riders last Thanksgiving night.

Announcement of the arrest of the Rev. Vance Simmons, pastor of a Primitive Baptist church at Freedom, and Garfield Simmons, a deacon in the same church, was made by Sheriff J. A. Huss of Brunswick county.

The two men were charged with assault with deadly weapons in connection with the flogging of Will Inman and Jessie Cox, farmers of near Freedom.

The whipping of Inman and Cox was part of the terrorism practiced in this section by night riders last summer and fall. Nearly a dozen persons, some of them women and girls, fell into the hands of the night riders who flogged their victims and then ordered them to leave the community.

Coroner K. S. Moody left for the isolated mine immediately on receiving a telephone call from one of the mine officials.

He has not yet reported back to his office.

The Walker mine, one of the largest copper mines in California, is high in the mountains near Spring Garden. Coroner Moody went by automobile to Spring Garden, and took the mining company's tram car nine miles across the mountains from there.

It was reported the blast occurred in a tunnel.

Naval Court Of Inquiry Probes Death Of Seven When Shell Explodes

TWO MORE MEN ARE NEAR DEATH

(International News Service) LOS ANGELES HARBOR, Feb. 20.—While death hovered over two more victims of the horrible shrapnel-shell explosion on the old battleship Wyoming, a naval court of inquiry assembled today on the battleship New York to investigate the tragedy which cost seven lives and sent 13 to the hospital.

David R. Williams and James O. Holland, marine corps privates, were reported near death on the hospital ship relief where 11 other injured men are being treated.

Williams' arms were torn from his body when the 5-inch shell exploded as he tried to ram it into position in the gun's breech while the ship was engaged in secret maneuvers Thursday at San Clemente Island, 60 miles offshore.

The toll of death rose to seven yesterday when Private Sydney Ensley, U. S. M. C., of Atlantic City, N. J., succumbed while the naval board of inquiry was meeting on the Wyoming. Findings of the board were not announced.

The six other marines who died Thursday when the flames and gas of the explosion roared through the gun casement and rained shrapnel on the deck a distance of 30 yards, were in mortuaries today awaiting burial.

Nixon's Car Stolen Recovered By Police

Hard Luck Seems To Trail Naval Recruiter Nixon's Automobile

The automobile of Maurice L. Nixon, United States naval recruiter, was recovered by police yesterday in Moravia street, after it had disappeared four hours earlier from North Beaver street.

According to Nixon the car was only parked less than ten minutes, while he walked across the street to a garage. When he returned, the automobile was not in sight. A report was immediately made to police, who found the car and turned it over to Nixon.

Evidently very rough treatment was given the car by the thief, for the front spring was broken and the upholstery damaged. A tank of gasoline was used up before the car was left on the street.

Hard luck seems to be trailing Nixon in regard to his automobile. Several weeks ago a group of boys carved initials in the back of the car while it was parked near the Federal building.

Brother's Tales Get Edward Otremba To Enlist In U. S. Navy

Two Members Of Plaingrove Family Now In United States Navy

Inspired by his brother's tales of adventure in the United States naval service, Edward L. Otremba, of Plaingrove, visited the office of M. L. Nixon in the Post Office building and applied for enlistment in the service. According to Nixon, the applicant passed his physical examinations with a very high rating, as did his brother several months ago.

His brother, Frank Otremba, is now home on a 10-day leave, and during his three-month training period he made an outstanding record of achievement in the navy. He was also noted as a boxer at the Newport training station.

Both boys attended the Plaingrove high school and passed the mental examinations with exceedingly high marks. Edward is now waiting the completion of his papers before being sent to one of the training schools for his three-month preliminary training period. He enlisted for a period of four years.

Recalls Advice Of Victor Hugo, "Learn To Write By Writing"

INDULGES IN PERSONAL PIFFLE

NEW YORK, Feb. 20.—Purely personal piffle: For the latest of the recent play feet—John L. Lewis, Skinniest of the stage stars: Gertrude Lawrence and Noel Coward. Nothing impresses me more than to see a stationery. My home along the Ohio was not dampened in the recent ducking.

When a hat checker refuses to accept his guests wraps on his check, Dean Cornwell stamps out to another cafe, hooray! Unforgettable small town drama: The scar of a horse hoof at the blacksmith shop. It took the radio folk a long time to discover Joe Cook, the newest clerk.

Prediction: A flock of brand new radio stars shortly—or else. Women with Back Bay accents make me rump and say "Yes mam." Any time my appetite sags I can step it up by a rowl through Charles's fancy grocery. Young Bill Hearst can laugh as heartily as anyone I know.

For oblivion: The dastard who roos over the fruit salad with whip cream. The only fellow I ever saw who can look like the magazine ads in store bought clothes is Hal Phylie, the photographer. For the League of Pretty Red Heads: Mrs. John Chapman and Ann Grosvenor Ayres.

No advice for the literary beginner excels Victor Hugo's: Learn to write by writing. Rebecca West can beat any modern writer a city block in picturesque phrasing. Hotel Astor. Wearing my first dinner jacket. The most enthusiastic bridge hound I know: Charles H. Valeska. Suratt struck me as being the world's most seductive lady. To-day my pick would be Katharine Cornell. I always wish the Borrah Minnervich harmonica players would cut the comedy and play.

Grover Whalen would give Jimmy Walker a run for the money as the best dressed Mayor of New York anyway. Add impossibilities: George S. Kaufman breaking into a broad grin. Town and Country is publishing some of the brightest magazine articles. Forgotten zoological history: P. T. Barnum put a lamb in a cage with a ferocious lion. Both were soon asleep. Animal experts say it was because the lamb was so fat. I used to think I'd like to return to the home town and greet old friends in a deep, stagey voice like that of DeWolf Hopper. One of the most loyal friends I ever had could not look one in the eye.

For my money, the De Marcos are the aristocrats, fairest in ballroom dancing. I've never stayed out until 2 a.m. without a yen to stop in at Reuben's. Texas strikes me as the most hospitable state for the total stranger. I never went into a classy haberdashery without buying more than I wanted.

Impromptu radio mot of the year: A Major Bowes amateur explaining his auto factory job as "putting nuts on brakes" and the Major responding: "And I put brakes on the—!" You remember details so well: Name the first names of the five most mentioned persons in newspapers in the last three years. The Dionne quintuplets, of course. But Alice Hughes suggests you call off their first names. Five persons in one day write in that Alfred P. Sloan is a look alike for a certain skinny columnist. Something chills about a letter that starts off "Dear Friend." It generally means a touch.

My Scotch grandfather always called a sidewalk "a paven meander." Nobody to my notion has the egg-shell brilliancy of Queen Mary. The literary celebrity who thrilled me as great as any to meet was Gil Patten, who authored the "Frank Merriwell" paper-backs. And my pulse still turns up turning into Broadway's glitter of lights at 50th street. Also a walking through Grand Central is a whooping adventure. No one can top Rube Goldberg in attaining cock-eyed absurdity.

Musical innovation: Vincent Lopez piano soloing pieces other than "Nola." Psychic stuff: Invariably I can detect unpleasantness in a letter before it is opened. I never miss. A Sinclair Lewis description I've always liked: "His eyes had the puffiness of an owl disturbed at noon." And I can always chuckle over this Wilson Mizner hilarity. Scene: Jack's. A waiter hovering over the table and listening to every word of Mizner's yarn. Finally, glancing up, Mizner cracked: "Pull up a chair!" And went on with the story.

Flood Control Survey Is Made

Army Engineers Study Conditions Which Existed Following Recent High Water

BETTER CONTROL OF DAM NEEDED

Further flood control projects in the Mahoning and Shenango Valleys are being considered by United States Army Engineers, as a result of a study they are making of conditions which existed during the recent high water. More flood control projects are needed, or better control of the existing dam is needed, they stated following their visit here this week.

The army engineers were here Wednesday, and also visited Sharon and Youngstown, where they studied the high water marks and surveyed the damage done. There was little damage locally from the flood, but in Sharon and Youngstown conditions were a little worse than here.

Although the Mahoning river has been back to normal for two weeks, the Shenango is still high, due to the fact that water impounded during the rainy spell in January is still being gradually released, the engineers found.

The Pymatuning reservoir saved the Shenango Valley district from two serious floods last spring and in January of this year, which fact was noted by the engineers in their visit to the district.

Picked Up In Other Papers

The Connellsville Courier contained the following dispatch from Uniontown this week: Witnesses in the Monaghan trial at Somerset are neither being paid fees nor transportation and may not receive their \$2 a day stipend from the county for years to come. Dr. H. D. Minard, Fayette county treasurer, has said "We have no money to pay out for witness fees; the treasury is bare. We are not going to get our own salaries until next July and we intend to take care of the county employees ahead of the Monaghan case."

Widening of the Lincoln highway from the West Virginia state line to a point about seven miles west of Crafton is to take place during the coming construction season. The highway crosses the south side of Beaver county.

According to the Butler Eagle, relatives of Thomas Jefferson Fleming, believed formerly to have lived in the Butler district, who died recently at Lodi, O., are sought in order that disposition of a small fortune may be made. W. C. Bascom of Lodi, O., is administrator of the estate.

"J. L. M." of The Record Argus, Greenville, devoted his entire column on February 18 to William G. Steele of near Ellwood City, and Mr. Steele's memories of Shenkevillville. It made interesting reading for Mercer countians.

**Your Income Tax
In A Nutshell**
DEDUCTIONS FOR CONTRIBUTIONS
Charitable contributions and gifts made by an individual are deductible within limitations provided by the revenue act. The organization to which the gift is made must meet several tests. The corporation, trust, community chest, fund or foundation must be operated exclusively for religious, charitable, scientific, literary or educational purposes, or for the prevention of cruelty to children or animals; and if a substantial part of its activities is carrying on propaganda or otherwise attempting to influence legislation, it fails to pass the tests. No part of the organization's income may inure to the benefit of any private stockholder or individual.

Contributions made to a missionary fund, church building fund, and for the benefit of other activities of the church are deductible. Pensions, assessments and dues paid to churches are regarded as contributions. Gifts to a corporation or association organized or devoted to the advancement of learning are deductible.

Gifts to an individual are not deductible, but if made to a charitable organization, as defined by the revenue act, may be deducted even

though the organization distributes funds among the individual beneficiaries.

Contributions made to the United States, any state or territory or political subdivision thereof, such as a city or town, or the District of Columbia, for exclusively public purposes, are deductible; for example, a gift of real estate to a city to be used perpetually as a public park is deductible. Also allowable are contributions to the special fund for vocational rehabilitation, to posts or organizations of war veterans and their auxiliaries in the United States and to lodges, if used for religious, scientific, educational, literary, or charitable purposes.

In general, the deduction is limited to 15 per cent of the net income, exclusive of the contributions.

Corporate contributions are deductible when made to or for the use of a domestic corporation, domestic trust or domestic community chest, fund, or foundation which meets the same tests as those made for recipients of individual contributions, but in the case of contributions or gifts to a trust, chest, fund or foundation, only if the contributions or gifts are to be used within the United States.

Deduction of corporate contributions is limited to 5 per cent of the net income, exclusive of the contributions.

MARKLEBURG
Do you know that there are a large number of interesting scenic attractions in and around Markleburg, in Fayette county?

Creek Drive, which extends ten miles through Rothrock State Forest, along the banks of Trough creek, offers some of the most beautiful scenery in Pennsylvania.

The balanced rock is surely an unusual sight. It weighs several tons and is balanced on the ledge of a high cliff about 200 feet above the creek.

Another rare treat is the natural ice mine. At this spot ice can be seen even as late in the summer as July.

Abbotts Run, with its unsurpassably beautiful scenery and waterfalls, is on a par with the world-famous Watkins Glen.

THAT'S GOLD!
(International News Service)
LOSTINE, Ore.—Oregon has its cold regions, along with Alaska, both Polar areas and similar spots. Proof of that fact was given by Mark Harris, who visited his cow camp in mid-winter and nearly froze to death despite two stoves. Harris said he was unable to fry hotcakes because the butter froze on top of the stove.

Commerce Chamber Board Will Meet

Directors Of Local Organization Will Have Dinner Meeting Next Week

Directors of the New Castle Chamber of Commerce will have a luncheon meeting in The Castleton, Thursday, February 25, at noon, followed by a business session.

It is reported that bills have been introduced in both the senate and house of representatives of congress, calling for the appropriation of one hundred and fifty millions of dollars for waterways development in western Pennsylvania, a part of which will be allocated to the construction of the Ohio River and Lake Erie canal.

This, together with other matters of importance, will be discussed at this time.

The nation's collegiate football coaches will investigate gambling on games. This is the first step to curb what coaches believe is one of the worst evils surrounding the game.

NEW CASTLE HIGH LOSES AT BUTLER 31 TO 18

Soapminers Get Revenge

New Castle High Closes Section Three In Game Last Night

ADAMS-SMALL IN FINAL GAME

New Castle High School "Red Hurricane" basketball team ended Section Three W. P. I. A. L. play last night at the Butler High floor by dropping a 31 to 18 decision to the Butler High Golden Tornado. The New Castle team ended the league season with seven victories and five upsets.

The victory gave Butler High the second-place berth in the league undisputed. Butler finished with eight victories and four defeats. It was the first Butler win over a New Castle team for many years and the Butler fans went wild with joy. When it did come it was a rather severe lacing by 13 points to an exact.

New Castle Leads
New Castle jumped into the lead at the outset of the game and at the end of the first period held an 8 to 2 margin. The end of the first half it was 11 for New Castle and 9 for Butler. It was in the third and fourth periods that Butler High won places.

The end of the third period it was 23 to 13 the New Castles made but two points while the inspired Butler took unto themselves 14 points for a commanding lead if there ever was one. In the final period New Castle was almost helpless to stop the Butler scoring attack led by Novak and Shuber, with Paffrath kicking in with a field goal and four fouls.

Last For Adams
It was the final game for George "Pop" Adams and he made one field goal, but played a fine defensive game. He will be missed next year. It was also the final game for Paul Small. He failed to score, but played a fine game at guard.

Vic Nocera and Cash Koszela led the locals in scoring with 11 of the points between them. Nocera had six points at center against the great Pataky. For the Heinzermen the work of Paffrath, Pataky and Novak was the best.

Maxie Schmeling Is Unconcerned

BERLIN, Feb. 20.—Max Schmeling, challenger for the heavyweight boxing championship, appeared unconcerned today over signing in Chicago of a contract for a bout June 22 between Champion James Braddock and Joe Louis.

"That doesn't change our plans," said Max Machon, Schmeling's trainer. "Schmeling is sailing next Wednesday on the Berengaria for his southern United States tour. He has complete confidence that his contract with Madison Square Garden for a championship fight in June will be carried out."

Freddie Steele Defeats Risko

Champion Does Not Look Very Impressive In Victory Over "Babe" Risko

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, Feb. 20.—In the midst of absolutely unbridled apathy Freddie Steele, of Tamoca, Wash., retained the world's middleweight championship by punching Babe Risko, ex-champion from Syracuse, N. Y., full of holes for fifteen rounds at Madison Square Garden last night. However, the story of the fight was not much what happened, but what didn't.

At the last minute, the people remained absent in a very marked manner, with the result that the gross receipts of \$17,000 probably established an all time low for championship fights hereabouts. The house management claimed a crowd of eleven thousand, but it looked more like eight.

Risko claimed nothing, neither the decision nor a dollar at the end. In fact, he became the first prize fighter on record to do fifteen rounds for charity—minus a sum of \$15,000 he was supposed to owe Steele when the usual pay off had to be indefinitely postponed owing to a well-let's call it owing.

The Babe, briefly, paid Steele \$10,000 some time ago and was to come through with another \$15,000 out of last night's net receipts, of which he himself contracted to accept 60 per cent. This probably amounted to less than \$9,000—and it was assumed that Steele took that.

K. Pulaski To Play Natrona

The K. Pulaski Big Five will meet the Natrona Falcons Sunday at the K. P. Hall on Atlantic avenue. The K. P. Pulaski Reserves will play a fast East Side Merchants team in the preliminary game at 1:30 o'clock.

The Natrona Falcons have a strong team. They recently upset the famous Polish Falcons with the great Kawa in the lineup.

Braddock-Louis Sign Papers To Meet In Chicago

Champion Jim Braddock Will Get Cool \$500,000 As His End Of Gate

By BILL COLLINS
International News Service Sports Writer

CHICAGO, Feb. 20.—Jim Braddock will fight Max Schmeling after he "disposes" of Joe Louis here the night of June 22.

Tuckered from the stress and strain of ceremonies incidental to the signing for the Louis bout yesterday, the heavyweight champion declared today, "I have no fear of losing my title" against the Brown Bomber, and added:

"Then I'll fight Schmeling. I'd have fought him this time, but it was not the proper time for it. After I dispose of Louis there will be more demand for a bout between me and the German. I can beat him also and then they'll have to get new foes for me."

Neither Braddock or his manager, Joe Gould, would enlarge on previous statements that they will not fight Schmeling in New York, June 3, as per their contract with Madison Square Garden.

To Get Half Million
The contracts signed yesterday to the accompaniment of clicking camera shutters, heart flutters and radio announcers were little different from those signed in the back room four weeks ago.

Braddock, who once was on relief, and not so long ago, will get \$500,000 for the 15 or less rounds, with the privilege of taking 50 per cent of the gross receipts should they exceed \$1,000,000. He also will get a 50 percent share of the movie and broadcasting revenue.

Louis, who once was a \$20 a week factory hand, and not so long ago, will get 17 1/2 percent of the receipts after the state taxes and ring costs are deducted, and will share to the same extent in the movie and broadcasting business.

The bout will be held at Comiskey Park, as announced several days ago, and the ball field will be rebuilt to seat 70,000 at from \$3 to \$25 a head.

West Middlesex Defeats Gersons

The fast West Middlesex Merchants handed the Gersons basketball team a 25 to 21 defeat last night at the West Middlesex floor, in a well played engagement. E. Bellville and Mitchell led the winners in scoring with 8 of the points between them.

For the Gersons the work of Wallace and Lewelly was the best.

Titans Will Battle Waynesburg Tonight

(Special To The News)
NEW WILMINGTON, Feb. 20.—Two evenly matched contenders for conference basketball honors will meet tonight, Saturday, February 20, on the New Wilmington floor, when Coach Frank Wolf brings his Wolpack to Westminister to meet the Titans, just back from a not-too-successful eastern trip, with one win and two losses.

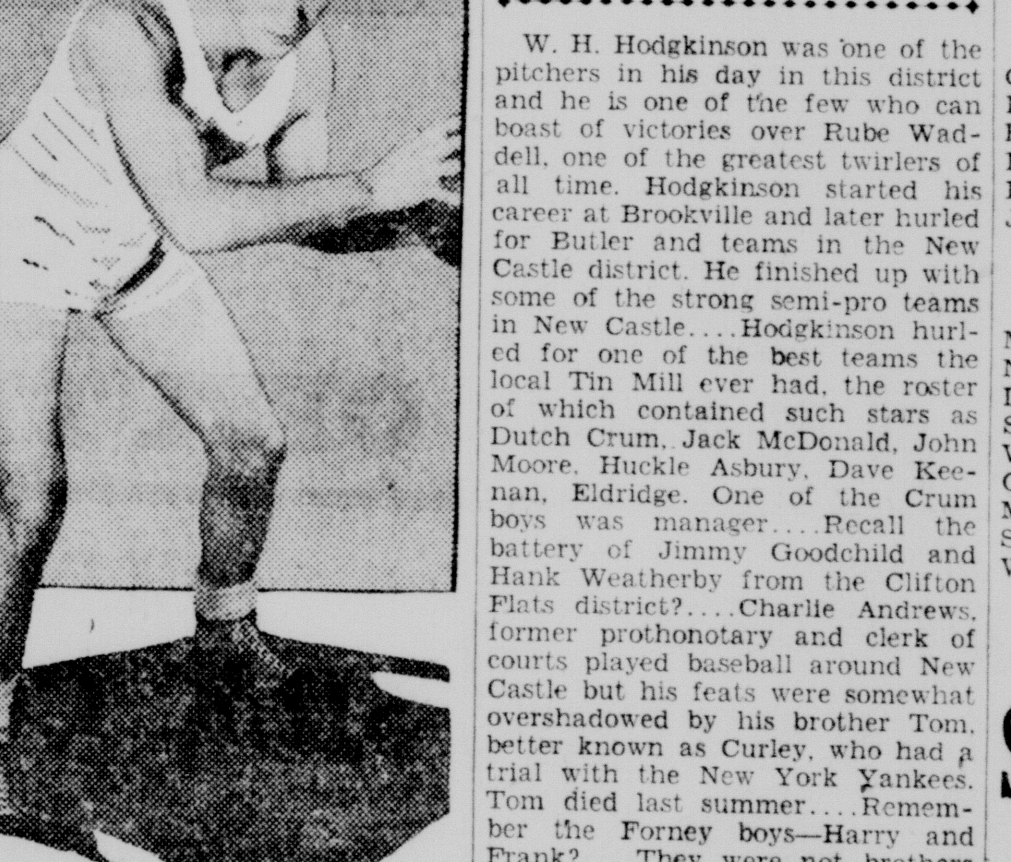

The Wolfmen have a record of 12 wins and 6 losses in eighteen games, to 8 wins and 5 losses for the Titans. Both teams have defeated Carnegie Tech, Salem and Slippery Rock, but the Titans have the edge with a win over Geneva, while the Covenanters were winning twice from Waynesburg.

In Ed Clark, Waynesburg has a high point scorer which Westminister cannot match. Clark has scored 201 points in 17 games for a twelve point average—two points better than the averages of Grubb and Demu, Titan point-getters. Clark, like Backus and Grubb, is a tall, lanky boy, fast and alert. Most of his shots are overhead tosses, at which he has a reputation for being deadly accurate. Clark, a product of South Hills high, Pittsburgh, failed to make his high school basketball team; but under the tutelage of Frank Wolf, a high-scorer in Penn State himself, Clark has developed into one of the best forwards in the district.

Coach Roark will probably use the same starting lineup that broke the ice in the eastern games: Gilliland and Demu at forwards; Backus at center. Grubb and Krivosh, guards. For the Wolfmen Clark and McKay will have the forward assignments; Ed Bouldin at center and Everhart and Penn at guards. McKay and Ed Bouldin are both seniors; but the remainder of the Wolpack starters will be sophomores.

The varsity game will start at 8:15 with a curtain-raiser at 7:50 between the Titan frosh and Punksu-tawney high school.

Titan Starter

RALPH GILLILAND

NEW WILMINGTON, Pa., Feb. 20. In Coach Roark's starting Titan lineup tonight against the Waynesburg Wolpack at Westminister will be Ralph "Susie" Gilliland, the first hometown boy in years to make the Titan first-string five.

Although Gilliland is not a heavy-scoring forward, he is one of the Titans' most consistent players both on offense and defense. Opposition players have learned that although "Susie" takes but few shots, when he does take them they usually go through the hoop.

The varsity game is scheduled to start at 8:15, with a curtain-raiser at 7:50.

Steels And Coppers Stage Rise In Irregular Market Today

By LESLIE GOULD
International News Service
Financial Writer

NEW YORK, Feb. 20.—Steel and copper shares staged a new rise in today's stock market after yesterday's uprush but a wave of profit-taking cut gains running to nearly three points.

Elsewhere the list was irregularly lower with amusement, motor, communication and some merchandise and aviation issues under pressure.

U. S. Steel crossed 114 for a rise of more than a point to a new high but declined later. Bethlehem was up nearly three points at one time and Crucible hit a new high.

In coppers, Anaconda was up two at one time and others scored wide gains. These were reduced later, however.

Phillips was strong in the oils. Rains were barely steady and utilities fractionally higher. Chrysler lost about a point in the auto list and General Motors eased.

Bonds showed a highly irregular trend. Wheat was heavy and cotton steady. Trading in all markets reflected the curtailing influence of the prolonged week-end holiday.

Government May Carry Tax Fight To High Court

Demand That General Motors Fork Over \$15,300,000 Additional For 1936 Income

(International News Service)
WASHINGTON, Feb. 20.—The government may carry its \$15,300,000 tax fight against General Motors Corporation to the courts, Internal Revenue Bureau officials said today.

In a sharply divided opinion, the U. S. Board of Tax Appeals yesterday affirmed the Bureau's contention that the company should pay this amount in additional taxes on its 1936 income.

Controversy over the company's tax liability arose when GM acquired the assets of the Fisher Body Corporation. GM purchased Fisher Body for 1,600,000 shares of GM stock. A portion of these shares were borrowed from the General Motors Securities Corporation.

After taking over Fisher Body GM repaid its obligation to GM Securities Corporation with more than 1,000,000 shares of stock it received for its newly-acquired Fisher Body stock.

The board majority upheld the company's contention that the entire transaction represented a non-taxable business reorganization.

Over Four Hundred Carloads Of Earth Removed From Slide

"The Hump" Tracks Still Blocked By Hill Slide Below Willow Grove

Practically all movement at the "Hump" hill slide has now ceased, stated C. E. Brinker today. He says that only a slow movement in the slide is now being recorded and they do not look for another major slide at this point. Several weeks ago the hillside at the "Hump" yards, where the Pennsylvania railroad, about two miles below Willow Grove, moved down on the tracks and disrupted traffic on the railroad. Spur tracks now route the trains around the point where the slide is blocking the tracks.

Since the start of the slide removal by the Pennsylvania railroad, a total of 418 carloads of earth have been shoveled from the track and taken to a spot near Wampum where it is dumped. Many more tons still cover portions of the track and will be removed within the next two weeks.

Due to the fact that about a score of springs break out at the point, the cause of the slide was laid to them. The heavy rains of several weeks ago swelled the springs and loosened the hillside. According to Mr. Brinker, it will be necessary to tap a number of these springs and carry the water over the edge of the slide in a pipeline to avert any future slides of earth.

A section of track about 50 feet in length will have to be rebuilt after the earth is all removed, because of the earth twisted the rails and undermining the ties. The railroad cars into which the earth is being loaded are of the "dumpy" type. Each car receives a covering of straw before the earth is loaded into it. This straw lets the earth slide out of the car when it is tilted and does not make it necessary to shovel it out. Most of this district is composed of heavy clay loam.

Difficulties are encountered when trying to move the steam shovel about. The springs have formed a small river at this place, and it is necessary to erect a float, to get the shovel about in the water and mud. Every time the shovel is moved, one portion of the float must be picked up and placed in front of the machine. The shovel moves onto this board and the one behind is moved ahead. This system is employed until the shovel is in the proper position for removing the hillside.

Probe Death Of Bridge Workers

California State Industrial Accident Commission Launches Investigation

(International News Service)
SAN FRANCISCO, Feb. 20.—The state industrial accident commission today launched its formal investigation into the death of a bridge worker killed when a two-ton scaffold on which they were working crashed 200 feet into the swirling waters of the entrance to San Francisco bay.

Timothy Reardon, chairman of the commission authorized the radio broadcasting of the hearing because of the unprecedented public interest in charges the tragedy could have been prevented.

More than the 2100-foot section of safety net ripped from the bridge by the falling scaffold, was 500 feet beneath the surface of the Golden Gate, and carefully hoisted by a derrick barge.

Emmeshed in its folds was the body of one of the victims, tentatively identified as that of Arthur Anderson, carpenter. Eight bodies are still missing.

WASHINGTON, Feb. 20.—Solidification of funds from federal employees hailing from Pennsylvania by one J. J. Quinn was revealed today by letters, telegrams and receipts issued under the signature of Quinn, and receipts from the Pennsylvania Democratic state committee.

Employees of temporary governmental agencies have been asked to contribute one-third of one month's salary, or 36 per cent of their annual salaries, to the Pennsylvania committee recipients of some of the letters told International News Service.

Some have paid—how many is uncertain because the offices which Quinn occupied for several months have been closed.

Newspapermen Get "Spanked"

(International News Service)
LONDON, Feb. 20.—Because foreign correspondents—particularly American and French—were too eager for news regarding the non-union committee's deliberations, the British foreign office today clamped down a mild form of censorship, unique in post-war British history.

All reporters, including Americans, were forbidden to interview any diplomats or attaches in Downing street. They were instructed to confine their visits to the press section only.

The ban, it was learned, was a direct result of attempts of correspondents to obtain information regarding non-union intervention in advance of the official communications.

LABOR LEADER SHOT TO DEATH IN NEW JERSEY

Police Lay Slaying Blame On Recent Subway Construction Labor Disputes

(International News Service)
TEANECK, N. J., Feb. 20.—Labor disputes in connection with subway construction in New York City were probed today by New Jersey officials seeking the murderers of Norman Redwood, head of the excavators union, who was ambushed and shot down in front of his home here.

A few hours after the slaying, which police believed was carried out by professional killers, nine suspects had been rounded up, and more than 25 persons were called in for questioning.

BUILDERS SUMMONED

Also invited to come here for questioning was Samuel Rosoff, wealthy New York subway builder, whose personal overtures a few days ago halted a strike of "sandhogs" on a new subway project. It was learned that Rosoff motored from New York to Atlantic City last night to spend Washington's birthday, and expected to come here on Tuesday to give police any information he could about a strike of sandhogs.

Redwood, 45 years old, was born in London, England. He was business manager of the New York Local 102 of the Compressed Air, Tunnel and Subway Workers Union. He had just stopped his automobile in front of his home last night as he was mowed down by pistol fire from another car. He was shot six times.

WASHINGTON AT A GLANCE

United States Will Not Lend

Europe Seeking Cash To Stall Off Germany's Demand For Colonies

ROOSEVELT IS CALLED UPON

Central Press Washington Bureau 602 Times-Herald Bldg.
By CHARLES P. STEWART
Central Press Columnist
WASHINGTON, Feb. 20.—European representatives (especially English and French) have been doing a deal of confabulating of a very mysterious sort with President Roosevelt and certain of his cabinet assistants of late.

From the antecedents of these visitors one would surmise that their confidential chats at the White House must relate to questions of international finance.
For example, President Walter Runciman of John Bull's board of trade (a governmental bureau about half way between our departments of the treasury and commerce) was a guest recently of this type. The Bank of England also has had negotiations here, since January 1. Now comes, as France's new ambassador, Georges Bonnet, the Paris government's financial and commercial expert.

CLOSE SECRETS
What these emissaries discuss with the president is kept so close a secret that their conversations at the executive mansion are gossiped about.
The guess most frequently heard is that overseas diplomacy's aim is to arrange a big American loan to Germany, in effect to buy the Reich off from doing anything overt mili-

tarly for the present. England and France haven't the money to spare. If they have it at all, they want to spend all of it on their own military establishments.
Such, at least, is the gossip's surmise.

AIM TO STALL

The theory is that Germany is, of European nations, the best prepared for an immediate clash.
Therefore an immediate clash is what its rivals want to prevent. The essence of their plan is to stall it off for a year or two.
The German demand for colonies, right now, alarms them.
Yet they realize that the Germans, while relatively prepared, must know that they are not over-prepared, and probably will take cash now in lieu of colonies, while preparing some more.

In the meantime the rival powers hope to out-prepare them.
UNCLE SAM'S ROPE
The plan isn't so ridiculous, assuming that the United States can be induced to foot the bill.
Spot cash, after all, can't fight a war.
Raw materials are needed. Germany, without colonies, lacks them. Britain, with its overseas supplies, has them a-plenty, and can furnish them to its allies, too.
But Germany is ahead just now. Give the British & Co. a little time, and they'll be in position to win.

In short: Let Hitler have rope and he'll hang himself.
But the United States is expected to provide the hemp.

FLY IN OINTMENT
The Johnson law throws a crimp into the entire program.
Sponsored by Senator Hiram W. Johnson of California, it prohibits American loans to countries which already are in default to the United States.

Germany is one of them.
The overseas folk's scheme, then, is to cancel all international indebtedness.
After being cancelled, they will cease to exist, and more indebtedness can be created.
However, insofar as this country is concerned, they can't be cancelled by overseas enactment. To be effectively cancelled, American speaking, they must be cancelled by congressional enactment on Capitol Hill also.

Europe wants cancellation by its own ukase, executively concurred in here.

Its own system acquiesces in this arrangement.
It can't comprehend that other complications are involved here.

Samuel B. Burrows to David J. Jones, Ellwood City, \$1450.

Divorce court was held on Friday with both court rooms being used. About twenty five couples were entered and in their turn told their troubles to Judges James A. Chambers and W. Walter Ebrahim. The decrees in the cases which warrant decrees, will be handed down, later.

An amendment to the charter of the Sick Benefit Society of the German Natives of Liebenburger, Austria, was filed Friday in the office of Register and Recorder William R. Hanna.

The proposed amendment to the state constitution which would limit "over-all" tax levies on real estate in Pennsylvania is being bitterly fought by the various governmental bodies of the state. A booklet has come to the county commissioners' office published by the following groups, League of Third Class Cities, State Association of County Commissioners, State Association of Townships, State Association of Township Supervisors, The

booklet attacks the amendment and urges opposition to its passage through the present session of the General Assembly.
The amendment was introduced in 1935 by State Senator Joseph Ziesenheim of Erie County and went through the House and the State. If it passes the present session it will go before the people of the state in 1938 for a vote and such an amendment would likely pass.
Under the terms of the amendment a property owner could not be taxed more than ten mills plus what ever millage would be needed for debt service. Debt service means the interest on bonds and the retirement of bonds.

The School District of the City of New Castle has a bonded indebtedness of \$2,165,000. The City of New Castle has a bonded indebtedness of \$996,000. The County of Lawrence has a bonded indebtedness of approximately \$750,000. To liquidate the bonds and keep the interest paid takes about five mills of taxation. If the amendment is passed the total levy would be about 15 mills, for a property owner in New Castle, Boro and township levies would vary according to their debts.
All tax levying bodies are against the amendment citing the fact that none of them could function with such a scant millage.

Negro Baritone Gives Concert
William Bowers Sings At Senior High School On Friday Night

William Bowers, Negro baritone, late of the show "Porgy and Bess", appeared in concert in the senior high school auditorium on Friday night.

As a financial spur to the fund for band uniforms the concert was unsatisfactory as only a small crowd appeared to hear the singer.

His program included two groups of classics by such composers as Brahms, Schubert and Gounod, a group of Negro spirituals, and a group of modern rhythmic ballads. Among the latter were "Lonesome Road", "I Got Plenty of Nuttin'", "Home on the Range" and "Ole Man River".

Bowers' personality and sense of rhythm gave the songs fine pace and color. The classics were a trifle heavy for his voice.

Small as the crowd was, it approved of his work heartily. He was accompanied by Lucille Davis, a former New Castle girl and a daughter of Rev. and Mrs. Homer B. Davis, formerly located in New Castle.

Many Hours Flown Since Work Stopped At New Airport

Fliers Chalk Up 45 Flying Hours During Month Of January

Since the work at the new New Castle Airport, on the Youngstown road, was stopped for winter, local pilots have been doing a good deal of flying and using the present port more than before.

During the months when the workmen were busy with their task of preparing the ground for the new port, it was dangerous to the workmen and to the fliers to bring a plane to earth. Although work on the ground in the immediate vicinity of the present port had not been started, trucks hauling earth and stone down to the new site, had to pass the present hangar and cross over one end of the plane runway. As the planes come in exceedingly low at this cross-over point, it was dangerous to fly while the workmen were on duty.

A total of 45 hours were flown by pilots at the port during the past month, they report. It was also stated that if the warm weather continues during the remaining portion of this month, a greater number of hours will be chalked up.

Son Of Local Man Tells Of Drought

Says Wyoming Failed To Get Any Of Unusual Rainfall Which Fell During January

Rienzi Coates of 31½ North Mill street is in receipt of a letter from his son, Harkey Coates of Casper, Wyo., in which he tells of the unusual weather which Wyoming has been experiencing.
While the weather in other sections of the country has been warm, with unusual rainfall, Mr. Coates relates that it has been unusually cold in Wyoming, only a few days with temperatures above freezing having been experienced in the last seven weeks. Temperatures have been down below zero for the most part, ranging from 24 to 45 below zero.

Wyoming has experienced a drought for the past four years and the residents of that state would have liked to have had a little of the Ohio flood, he states.

FILM IS BARRED

(International News Service)

PHILADELPHIA, Feb. 20.—The state board of censor today was ordered by Gov. George H. Earle to forbid exhibition in Pennsylvania of the Spanish loyalist moving picture "Spain in Flames."

"The picture is pure communist propaganda dressed up as a plea for democracy," concluded Earle after viewing the picture. "We Pennsylvania are not interested in the propaganda of a government in large part made up of communists, syndicalists and anarchists who butcher priests."
